iLUV (ieee Lights Up a Village) **An IHTC (IEEE Canada Humanitarian Technology Conference) Workshop**

Wednesday, June 3rd 3:30pm – 5:00pm at the National Arts Center, Ottawa, Ontario, Canada

According to the World Bank and the International Energy Agency, over 1.3 billion people in the world have no access to electricity that is 18% of the world population. More than 95% of these people are either in sub-Saharan African or developing Asia and 84% are in rural areas.

The IEEE Canada Industry Relations Committee, the International Year of Light Canadian Committee, the IHTC 2015 Program Committee, LUTW, together with the IEEE Photonics Society Ottawa Chapter invites you to attend the workshop - iLUV on technologies and solutions for efficient, cost-effective, renewable electricity power generation and lighting.

Aspects to be discussed at the workshop include:

- Challenges and Solutions
- Field Deployment Experience
- Partnering with Technology Providers
- Possible Funding Sources
- Training of Local Technicians
- Volunteering Opportunities
- Future Technologies

Speakers of the workshop:

- Dave Irvine-Halliday, Founder & Executive Chair, Visionary Lighting & Energy India (P) Ltd. (VLE)
- Robert Dick, Founder and CEO, the Canadian Scotobiology Group Inc. (CSbG)
- Glenn McKnight, Chair, Foundation for Building Sustainable Communities (FBSC)
